

“

Over the last **30 years**,
we have gone from strength
to strength and are now
established as one of the
UK industry leaders in the
manufacture of Polythene
and Compostable products.

”

Imperial Polythene Products Ltd

HELLO FROM OUR DIRECTORS

We are Sam and Frank, and we established Imperial Polythene Products in 1994 to provide outstanding customer service to those in need of bespoke polythene products.

We are one of the few UK-based producers of sacks, bags, tubing, and sheeting. We take pride in supporting UK businesses and reducing the carbon footprint for our local customers by manufacturing and storing products near Heathrow Airport.

Our vision is to continue developing partnerships with our clients by offering new ideas and competitive prices, allowing us to tackle global problems with simple, effective solutions.

We are incredibly proud of what we have accomplished over the last 30 years and of all our fantastic team members across the business.

PRODUCTS

For **over 30 years**, Imperial Polythene have been extruding, manufacturing and supplying bespoke virgin grade & recycled bags, liners and various films.

We manufacture and supply the following **4 key industries**:

01 | WASTE MANAGEMENT PRODUCTS

We specialise in producing custom polythene bags, sacks, liners, and films tailored to your specific requirements.

Our expertise extends to manufacturing products featuring your branding.

We offer products made from biodegradable, recyclable, and compostable materials.

We proudly supply these products to private waste management companies, facilities management firms, and local authorities.

03 | INDUSTRIAL POLYTHENE PRODUCTS

We extrude a diverse range of industrial films, bags, and sheets for various manufacturing sectors. Our offerings include mattress bags and films, which can be produced with custom printing, plain finishes, or a recycle logo.

We provide pallet top and bottom sheets, available perforated on a roll or boxed, in natural, tinted, or opaque options.

Our collation shrink films are designed for automated packing lines, and we also offer heavy-duty shrink films suitable for use with a heat gun.

Additionally, we produce form fill and seal films for high-speed, fully automated packing lines, available in both plain and printed formats.

02 | CLINICAL WASTE PRODUCTS

We manufacture a wide range of bags designed to contain clinical, offensive, infectious, and potentially infectious waste.

Our products are ideal for use by the NHS, veterinarians, and pharmacies.

We hold UN accreditation from 3 to 30 kg, plus selected holding weights that have **PASSED the tests for bulk transport defined in 7.3.2.6.2® (RID/ADR) and 4.3.2.4.2.3 (IMDG Code)**.

04 | PRODUCTS FOR FOOD

With our BRC accreditation, we provide box, tray, dolav, and euro bin covers, liners, and bags suitable for direct food contact.

We also manufacture Form Fill and Seal single-wound film for automated filling lines, catering to various sectors of the food industry, including abattoirs, food processors, ingredient suppliers, and fresh produce growers.

These products are available either boxed or on a core (plastic or cardboard).

3 STEPS TO RECEIVING BESPOKE POLYTHENE PRODUCTS

1

SPECIFICATION

As a family-owned business, we pride ourselves on delivering a professional yet enjoyable experience for our clients. When you choose Imperial Polythene, you'll receive **personalised service from a dedicated account manager** who will work closely with you to ensure that every detail of your custom polythene product **meets your exact specifications**.

We stay informed on the latest industry developments, including the implementation of the plastic tax. Our team will help you navigate the options between recycled and virgin-grade materials, allowing you to make an eco-conscious choice that aligns with your needs.

In addition, we have extensive knowledge of polythene additives. Whether you require UV stabilizers to protect against sunlight, antioxidants for enhanced durability, or biodegradable additives for a more environmentally friendly product, **our experts are here to guide you through the selection process**.

At Imperial Polythene, we are more than just manufacturers; we are dedicated to making your polythene products stand out in the market.

2

CUSTOMISE YOUR POLYTHENE PRODUCTS

Your account manager will coordinate the branding for your products, helping to enhance your brand's visibility and recognition.

We can create clear, coloured, or multi-coloured bags that align with your branding.

Using branding plates, we apply your images and text to the products, ensuring they adhere to your company's brand guidelines. **Branding your products can strengthen your brand identity and leave a lasting impression on your customers.**

3

UTILISE OUR UK STORAGE AND DISTRIBUTION

We maintain your products in our extensive storage facilities near Heathrow Airport, ensuring they are readily available for regular deliveries.

You can rely on us to consistently meet your order requirements. Your dedicated account manager will oversee all aspects of future orders, delivery arrangements, and any product modifications.

ACCREDITATIONS & MEMBERSHIPS

We take quality assurance seriously and are committed to maintaining the highest standards in polythene production. Our dedication to excellence is reflected in the numerous accreditations and memberships we hold.

These certifications not only demonstrate our adherence to industry best practices but also ensure that our products consistently meet stringent quality and safety standards. Our accreditations cover various aspects of production, from material sourcing and manufacturing processes to environmental management and product safety.

By upholding these standards, we guarantee that our clients receive reliable, high-quality products that meet their specific needs and regulatory requirements.

SINCE 1994

COMMUNITY

IMPACT FUND

ABOUT

Imperial Polythene is proud to announce the launch of the **Imperial Community Impact Fund**; a new initiative designed to support local community groups and charities committed to making a positive difference.

With an annual fund of **£10,000**, this grant scheme offers between **£500 to £1,000** per project to inspire and empower local organisations working in the areas of the **environment, sustainability, creativity and local problem solving**. By fostering imagination and collaboration, we hope to improve the well-being of communities and promote sustainable development.

We invite **community groups** and **charitable organisations** to apply for funding to **bring their meaningful ideas to life**.

Our goal is to support initiatives that drive meaningful change, whether through environmental conservation, creative community participation, or solving pressing local challenges.

The fund is open for submissions twice a year, in January and July.

ELIGIBILITY CRITERIA

Our community grants are aimed at **charities and not-for-profit organisations**. Please make sure your organisation is able to fulfil the following criteria before applying for a grant:

- You must be a charity or not-for-profit organisation that helps local communities
- Organisations must be one of the following types of organisations:
 - Charity
 - Charitable Incorporated Organisation (CIO)
 - Community Interest Company (CIC)
- Be based in the UK
- Organisation projects must fall into one if not more of these categories:
Environment, Sustainability, Creativity, Local Issues
- Funded activity must take place after the grant has been awarded
- Organisations should have an annual income of £25,000 - £500,000 in your last set of accounts
- A safeguarding policy must be in place (if the organisation supports children or vulnerable people)
- You must have a bank account in the same name as the organisation you are applying for, with a minimum of two unrelated signatories
- A board of at least three unrelated trustees or directors
- Operating for at least 12 months and have published financial data available
- Projects/activities must not run longer than 6 months
